NEP-2020 proposed UX presentation

myelin internal – product, engineering and user development team

Design Intent

These baselines are reflective, not evaluative

No single survey gives a “readiness score”

Insights emerge only when views are combined

TASK 1- Landing page: Cards + Main Heading

Main Web Page Heading (very important)

We want something that:

- feels reflective, not evaluative
- works for both leaders and teachers
- sets expectation that this is a *starting point*

NEP-2020 Readiness & Pedagogy practice baselines

Supporting sub-heading (smaller text):

Understand orientation, classroom practice depth, and thinking capabilities — to guide focused teacher development.

Landing page card arrangement

Section Title on Page - baseline

Card 1 — School leadership Orientation (NEP-2020)

Card Title:
NEP-2020 school leadership orientation

Who: School Heads / Academic Leaders
It will capture:

How leadership attention is currently distributed across NEP priorities.

- Orientation towards the **5 Foundational Principles**
- Leadership attention patterns (no depth, no judgement)

CTA:
`Start Leadership Baseline`

Output: FP Orientation only (no depth, no scoring)

Card 2 — Teacher practices orientation & depth

Card Title:
Teacher Classroom Practice Baseline

Who: Teachers
It will captures:

How classroom practices are enacted, not just intended.

- Orientation to **5 Foundational Principles**
- **Depth of classroom practice** (procedural → adaptive)

CTA:
`Start Teacher Practice Baseline`

Output: FP Orientation + Practice Depth (D1–D4)

Card 3 — Teacher Cognitive & Computational Thinking

Card Title:
Teacher thinking & reasoning baseline

Who: Teachers
It will captures:

How teachers reason, analyse, and design learning.

- Cognitive thinking
- Computational thinking
- Classic **4Cs lens** (Curiosity, Critical thinking, Collaboration, Communication)

CTA:
`Start Thinking Baseline -` (Cognitive & Computational)

Card 4 — NEP Readiness Practices (Yes / Partial / No)

This survey captures system readiness, not classroom behaviour.

Card Title:
NEP readiness practices survey

Who: Leaders + Teachers (role-specific views)
What it captures:

What structures and practices already exist in the school.

- Presence of systems, processes, culture
- Readiness across diagnostics, HPC, PLCs, leadership, parents

CTA:
`Start Readiness Survey`

Card Order (important)

Recommended order on page:

1. Leadership Orientation
2. Teacher Practice Orientation & Depth
3. Teacher Cognitive & Computational Thinking
4. NEP Readiness Practices (Yes/Partial/No)

TASK 2 — Survey split

Rule: If a question can be answered by observing one's own classroom, it does *not* belong in the readiness survey

A. Teacher-Only Surveys

1. Teacher Practice Orientation & Depth

- Classroom scenarios
- Practice questions
- FP + Depth inferred internally

2. Teacher Cognitive & Computational Thinking

- Problem-solving
- Reasoning
- Pattern recognition
- Question framing
- Decision logic

(Links naturally to 4Cs)

3. Teacher NEP Practice (Yes / Partial / No)

Added in Appendix that will cover:

- Continuous Learning Diagnostics
- Teacher Development & Maturity
- Holistic Progress Card (HPC)

These should be **teacher-view** questions only

B. Leader-only surveys

1. NEP-2020 Leadership Orientation

(5 FP orientation — already done)

2. Leadership & Implementation Culture (Yes / Partial / No)

Added in Appendix that will cover:

- NEP implementation team
- PLC cadence
- Use of diagnostics data
- Decision-making practices

These stay **leader-only**.

3. Parent & Community Involvement (Leader View)

Leaders answer at **school/system level**, not classroom anecdotes. After first orientation , myelin will enable "Parent survey" shared by teachers.

Canonical Survey Responsibility Matrix

Survey	Teacher	Leader
FP Orientation	✓	✓
FP Practice Depth	✓	✗
Cognitive & Computational Thinking	✓	✗
Diagnostics & HPC Practices	✓	✓ (different lens)
Leadership Culture	✗	✓
Parent & Community Systems	✓ (experience)	✓ (structure)

TASK 3 — Sequence of execution (very Important)

We *can* do some in parallel, but **not all at once**.

Recommended Sequence (3-Phase)

- Phase 1 builds shared language
- Phase 2 builds individual reflection
- Phase 3 builds system accountability

Phase 1 — Orientation First (Low friction)

Run in parallel (Week 1):

- Leadership FP Orientation
- Teacher FP Orientation + Practice Depth

This will unlocks **Leader–Teacher Alignment View** early.

Phase 2- Teacher thinking baseline (Week 2–3)

Run next:

- Cognitive & Computational Thinking baseline (teachers only)

Phase 3- Readiness practices (Yes /Partial/No) (Week 3–4 once a teacher development workshop is done for champion teachers)

Run last:

- Diagnostics
- HPC
- PLCs
- Leadership & parent systems

Parallel vs Sequential Summary

Can be Parallel	Should be Sequential
Leader FP + Teacher FP	Thinking baseline after practice
Teacher FP + Practice	Readiness practices after baselines

myelin
excellence for educators

Appendix

NEP-2020 Readiness – Enablement & Systems Baseline

A. Teacher lens-NEP enablement & support Readiness

(Answered by Teachers)

Framing shown to teachers:
This section focuses on the systems and supports available to you- not your classroom practices.

A1. Continuous learning diagnostics (teacher enablement)

Area	Question (Teacher View)	Response Type
Access	Do you have access to simple tools or formats to understand students' learning levels?	Yes / Partial / No
Usability	Do these tools help you clearly identify what students are struggling with?	Yes / Partial / No
Follow-through	Do you get time or support to act on diagnostic insights?	Yes / Partial / No
Collective use	Are diagnostic insights discussed with other teachers (meetings / Peer learning circles)?	Yes / Partial / No
Student clarity	Are students informed about what they are working towards based on diagnostics?	Yes / Partial / No

A2. Teacher Development & Growth Support

Area	Question (Teacher View)	Response Type
Structure	Do you have a clear plan or pathway for your professional growth aligned to NEP?	Yes / Partial / No
Safety	Do you have safe spaces to discuss classroom challenges openly?	Yes / Partial / No

Peer learning	Do you have opportunities to learn from other teachers regularly?	Yes / Partial / No
Experimentation	Are you encouraged to try new approaches without fear of evaluation?	Yes / Partial / No
Growth culture	Is teacher growth discussed beyond annual reviews?	Yes / Partial / No

A3. Holistic Progress Card (HPC)-Teacher Enablement

Area	Question (Teacher View)	Response Type
Understanding	Do you clearly understand what to observe beyond marks for HPC?	Yes / Partial / No
Clarity	Are HPC indicators clearly explained and documented?	Yes / Partial / No
Time	Do you get time to record and reflect on HPC inputs?	Yes / Partial / No
Use	Are HPC discussions used to guide learning conversations?	Yes / Partial / No
Student role	Are students involved in reflecting on their own progress?	Yes / Partial / No

A4. Parent & Community Support (Teacher Experience)

Area	Question (Teacher View)	Response Type
Communication	Do you feel supported in communicating learning progress to parents?	Yes / Partial / No
Guidance	Do you receive clear guidance on how to engage parents meaningfully?	Yes / Partial / No
Facilitation	Are community interactions facilitated by the school (not left to you alone)?	Yes / Partial / No
Recognition	Are efforts to involve parents or community recognised?	Yes / Partial / No

Teacher Reflection (Open)

What support, if strengthened, would most help you improve learning for your students this term?

B. Leadership lens-NEP culture & system readiness

(Answered by School Leaders)

Framing shown to leaders:
This section focuses on leadership structures, decision-making, and culture that enable NEP-aligned learning.

B1. NEP Governance & Ownership

Area	Question (Leadership View)	Response Type
Ownership	Do you have a clearly identified role or team responsible for NEP implementation?	Yes / Partial / No
Translation	Are NEP priorities translated into term-wise focus areas?	Yes / Partial / No
Distribution	Is responsibility for NEP implementation shared across the school?	Yes / Partial / No

B2. Data-Informed Decision Culture

Area	Question (Leadership View)	Response Type
Review	Do you review learning diagnostic insights at leadership level?	Yes / Partial / No
Decisions	Are academic decisions influenced by learning trends?	Yes / Partial / No
Support	Are teachers supported when data suggests changes are needed?	Yes / Partial / No

B3. Teacher Development Culture (Leadership View)

Area	Question (Leadership View)	Response Type
Peer Learning circles	Do you have regular and purposeful teacher reflection forums?	Yes / Partial / No
Safety	Are teachers encouraged to share challenges without fear?	Yes / Partial / No
Experimentation	Is experimentation protected and valued by leadership?	Yes / Partial / No

B4. HPC & Reporting Culture

Area	Question (Leadership View)	Response Type
Purpose	Is HPC discussed as a learning narrative, not just reporting?	Yes / Partial / No
Parent clarity	Are parents oriented to what HPC represents?	Yes / Partial / No
Teacher support	Are teachers supported in shifting beyond marks-based reporting?	Yes / Partial / No

B5. Parent & Community Partnerships (Leadership View)

Area	Question (Leadership View)	Response Type
Strategy	Do you have a school-level approach to parent engagement?	Yes / Partial / No
Activation	Are community resources identified and used intentionally?	Yes / Partial / No
Feedback	Is parent feedback used to improve learning processes?	Yes / Partial / No

Leadership Reflection (Open)

What one system or habit, if improved, could most strengthen NEP-aligned learning in your school this term?
