excellence for educators

School leaders NEP readiness-Orientation design document

I. Foundational Philosophy: The 5 Guiding Principles

Principle / Goal	Essence from NEP 2020 and NCF 2005	Implication for Teachers
Every child is unique	"Identification, recognition, and fostering of unique capabilities of each learner." (NEP 2020 sec. 4.2)	Observe learners beyond marks-note interests, pace, and participation.
Learning must be holistic, experiential, integrated, and enjoyable	"Curriculum must move from rote to understanding and application." (NCF 2005 Ch 3)	Use activities, real-life links, local context and not just textbook recall.
Teachers as reflective practitioners	"Teachers must be at the canter of the learning process." (NEP 2020 Ch 5)	Reflect weekly on what worked / didn't; share with peers.
Assessment for learning, not of learning	"Assessment shall be regular, formative, and competency-based." (NEP 2020 sec 4.34 – 4.38)	Use short diagnostics, peer feedback, and self-reflection.
Collaboration & parent, community participation	"Learning is strengthened through community and parental engagement." (NCF 2005 Ch 5 & NEP 2020 §6)	Involve parents, artisans, local experts in class experiences.

II. Readiness Domains (Teacher-Educator Focus)

A. *Continuous Learning Diagnostics*
B. *Teacher Development & Maturity*
C. *Holistic Progress Card (HPC) Implementation*
D. *Leadership & Implementation Culture*

E. *Parents & Community Involvement*

1. First principles

From NEP-2020, the **5 Guiding Principles are not competencies**.
They are **value orientations**.

Response to survey/assessment should reveal - **"Which NEP principle is this response primarily anchored in?"**

2. The 5 foundational philosophy orientations (Canonical)

We define **5 Orientation Anchors**:

Code	NEP Foundational Orientation	Core Question Leader Is Asking
FP-1	**Every Child is Unique**	"How is each learner experiencing learning?"
FP-2	**Holistic & Experiential Learning**	"Is learning meaningful beyond textbooks?"
FP-3	**Teacher as Reflective Practitioner**	"What is the teacher thinking, trying, learning?"
FP-4	**Assessment for Learning**	"What does evidence tell us about learning gaps?"
FP-5	**Collaboration & Community**	"Who else is part of the learning ecosystem?"

These are **not levels**. They are **lenses of attention**.

In Question design each option in a leader question maps to ONE dominant Foundational Philosophy orientation. It tells us where the leader's attention naturally goes first.

Questions part 1 - Five foundational anchor questions (Minimal & Explicit)

FP1: Every child is unique

1. When a class shows uneven learning progress, what is your first response as a school leader?

A. Ask teachers to continue as planned so most students stay on track (FP2)

B. Ask teachers to identify specific students who need different support (FP1)
C. Review overall class performance trends (FP4)
D. Discuss strategies collectively in the staff meeting (FP5)

FP2: Holistic & Experiential Learning

2. When you visit a classroom, what makes you feel that learning is happening well?

A. Students are attentive and engaged in activities(FP2)
B. The teacher is explaining concepts clearly (FP3)
C. Students are asking questions and trying different approaches (FP1)
D. Students are able to answer assessment questions correctly (FP4)

FP3: Teacher as Reflective Practitioner

3. When a teacher's lesson does not go as expected, what do you usually do first?

A. Ask the teacher to reflect on what worked and what did not (FP3)
B. Suggest using a different activity next time (FP2)
C. Check student assessment results (FP4)
D. Discuss the issue with other teachers (FP5)

FP4: Assessment for Learning

4. When reviewing student assessment data, what do you focus on first?

A. Overall class average (FP2)
B. Common misconceptions across students (FP4)
C. Individual students who are struggling (FP1)
D. Sharing findings with teachers for planning (FP5)

FP5: Collaboration & Community

5. When planning improvement efforts in the school, who do you involve early?

A. Senior teachers (FP3)
B. Parents and caregivers (FP5)
C. Focus on internal planning first (FP2)
D. Use assessment data to guide decisions (FP4)

Questions part 2 – Fifteen daily practice questions (implicit)

1. When reviewing classroom observations, which pattern concerns you the most?

A. Students finishing work at different times (FP2)
B. Students asking many questions during the lesson (FP3)
C. Students working quietly but showing little initiative (FP1)
D. Students discussing answers with peers (FP5)

2. How do you usually understand students' varied learning preferences?

A. Through the professional conversation with teacher (FP3)
B. From student classroom behaviour (FP1)
C. From assessment results (FP4)
D. From parent feedback about learning at home (FP5)

3. When walking into a classroom, what do you naturally look at first?

A. Whether students are attentive (FP2)
B. Whether the teacher is following the plan (FP3)
C. Whether different students are engaged in different ways (FP1)
D. Whether the class is quiet and orderly (FP2)

4. If multiple classes struggle with a topic, what is your typical next step?

A. Check whether the chapters were completed (FP3)
B. Compare the performance data across classes (FP4)
C. Discuss with teachers how students approached the topic (FP5)
D. Ask teachers to schedule additional revision of the same content (FP2)

5. When looking at learning data, which trend do you investigate first?

A. Number of students who scored below 40% (FP2)
B. Variation between question types (FP4)
C. Comparisons between sections of the same grade (FP3)
D. Shifts in performance of specific students over time (FP1)

6. During a class observation, if students complete a task very quickly, you generally think:

A. The task was easy and appropriate (FP2)
B. The teacher's explanation was very clear (FP3)
C. The task may not have challenged all learners (FP4)
D. Students must have memorised similar questions (FP1)

7. When reviewing lesson plans, which aspect do you notice most?

A. Whether the content matches the textbook (FP2)
B. Whether the activities are manageable within the period (FP2)
C. Whether the intended outcomes are measurable (FP4)
D. Whether instructions are clear for the teacher to follow (FP3)

8. A teacher asks for support in improving student understanding. Your first question is usually:

A. "Which part of the syllabus is pending?" (FP2)
B. "What tasks did students struggle with?" (FP4)
C. "How did students respond during the lesson?" (FP1)
D. "Which worksheets have been completed so far?" (FP2)

9. When teachers prepare activities, what is your main consideration?

A. Whether the activity is manageable for all classes within time (FP2)
B. Whether the activity matches the exam format (FP4)
C. Whether students must think in different ways during the activity (FP2)
D. Whether the activity is co-planned / shareable with other teachers (FP5)

10. When you see a teacher using an unfamiliar method, what do you usually do?

A. Check whether the class control is maintained (FP2)
B. Observe student reactions closely (FP1)
C. Ask the teacher to explain the thinking behind it later (FP3)
D. Remind them to stay aligned with the yearly plan (FP2)

11. When a teacher struggles repeatedly with a concept, your instinctive response is:

A. Ask another teacher to share materials (FP2)
B. Suggest attending an upcoming workshop (FP3)
C. Sit together to understand the root difficulty (FP4)
D. Recommend revising the chapter again (FP5)

12. During staff meetings, what do you tend to highlight the most?

A. Completion of planned activities (FP2)
B. Instances of effective teamwork (FP5)
C. Student progress trends (FP4)
D. Challenges teachers are facing (FP5)

13. When planning parent interactions, what is your priority?

A. Ensuring logistical arrangements are smooth (FP2)
B. Updating parents about academic schedules (FP4)
C. Helping parents understand how learning happens (FP5)
D. Addressing specific concerns raised by parents (FP1)

14. When parents ask about their child's progress, you usually talk about:

A. Attendance and day to day behaviour (FP2)
B. Upcoming school activities (FP2)
C. How the child learns and participates (FP1)
D. Marks and test performance (FP4)

15. When designing the school communication plan, you focus on:

A. Frequency of communication (FP2)
B. Ensuring messages are clear and short (FP3)
C. Helping parents support learning at home (FP5)
D. Making sure all notices reach parents (FP4)

Each option is tagged internally to one Foundational Principle (FP-1 to FP-5) to support orientation analysis. These tags are not visible to respondents and do not imply correctness.
